# MACROECONOMIC MONITOR OF CYPRUS

Updated on 17 November 2023

## Macro Economy

- In the 3rd quarter of 2023, GDP (in seasonally adjusted terms) recorded a positive rate of growth of 2.2%, same as in the 2nd quarter of 2023 on an annual basis (see graphs 1.1-1.2). The positive GDP growth rate is mainly attributed to the sectors: "Hotels and Restaurants", "Transport and Storage", "Wholesale and Retail Trade, Repair of Motor Vehicles", "Information and Communication", "Construction", "Arts, Entertainment and Recreation" and "Other Service Activities" (see graphs 3.1-3.4 and 6.1-6.2).

- Developments (in seasonally adjusted terms) currently driven mainly by increases in consumption and gross fixed capital formation (see graphs 2.1-2.4).

- In October 2023, economic sentiment in Cyprus deteriorated slightly, as the Economic Sentiment Indicator (ESI-CypERC) decreased by 0.5 points compared with September 2023 (see graph 1.3). The decrease in the ESI-CypERC was mainly driven by weaker business confidence in services.

- For the period of January-October 2023, arrivals of tourists totaled 3.562.417 compared to 2.941.182 in the corresponding period of 2022, recording an increase of 21.1% (see graph 6.3). Arrivals from the United Kingdom were the main source of tourism for October 2023, with a share of 36.2% of total arrivals, followed by Germany with 7.1% and Poland with 6.7%.

- Employment developments reflect conditions of improved economic activity. Total employment increased by 1.8% in the 1st half of 2023 compared to the same period in 2022. The most significant percentage increases were observed in the economic activities of Accommodation and food service activities, Wholesale and Retail Trade, Information and communication, Manufacturing, Human health and social work activities and Professional, scientific and technical activities.

- Labour Force Survey (LFS) unemployment, in monthly seasonally adjusted terms, decreased to 6.2% in September 2023 compared to 6.7% in September 2022 (see graphs 4.2-4.3). The most affected segment of the population is youth unemployment, although it has been on a downward trend since the 3rd quarter of 2013 falling to 16.0% in the 3rd quarter of 2023 from a peak of 40.7% in the 2nd quarter of 2013.

- Compensation per employee recorded an increase of 4.1% in the 1st half of 2023 compared with the same period in 2022 (see graphs 5.3-5.5).

- Inflation (HICP) in October 2023 recorded an increase of 3.6% compared to an increase of 4.3% in September 2023 (see graph 5.1) and for January-October 2023 it stands at 4.3%. Compared to January-October 2022, the largest changes were noted in Food and Non-Alcoholic Beverages (9.0%) and Restaurants and Hotels (6.5%). Core HICP recorded an increase of 4.8% in January-October 2023 (see graph 5.2).

- Imports of goods recorded an increase of 12.7% in January-September 2023 compared to January-September 2022. Imports are affected by developments in imports of transport equipment (aircrafts and vessels). Imports of goods, excluding imports of aircrafts and vessels, exhibit an increase of 8.3%.

- Exports of goods recorded an increase of 14.6% in January-September 2023 compared to January-September 2022. Exports of goods, excluding exports of aircrafts and vessels, exhibit an increase of 11.5%.

## External Sector

- The current account (CA) balance of Cyprus (see graph 6.4) recorded an improvement, with the deficit decreasing from €1,045.7 mn (-3.8% of GDP) in 2022Q2, to €346.1 mn (-1.2% of GDP), in 2023Q2. The decrease in the CA deficit resulted mainly from the improvement of the surplus of Services. In addition, the improvement of the deficit in Goods and, to a lesser extent, the decrease in the deficit of Primary Income, contributed to the shrinkage of the deficit. The aforementioned developments were partly offset by the increased deficit of Secondary Income. The resulting deficit adjusted for the impact of Special Purpose Entities (SPEs), that is, classifying SPEs as non-residents, stood at €480.7 mn (-1.6% of GDP) in 2023Q2, compared with a deficit of €727.2 mn (-2.6% of GDP) in 2022Q2.

- The international investment position (IIP) (see graph 6.5) recorded a deterioration in 2023Q2, presenting a net liability position of €28,658.3 mn, compared with a net liability position of €28,265.1 mn in 2023Q1. With the corresponding data being adjusted for the impact of SPEs, IIP recorded a net liability position of €10,710.7 mn in 2023Q2, compared with a net liability position of €10,217.5 mn, in 2023Q1.

- The gross external debt decreased marginally to €169,614.3 mn in 2023Q2 from €169,618.8 mn in 2023Q1. The external assets in debt instruments increased to €146,830.5 mn, up from €145,614.5 mn in 2023Q1. Consequently, the net

external debt decreased by €1,220.5 mn to €22,783.81 mn in 2023Q2. Adjusted for the impact of SPEs, gross external debt reached €58,513.4 mn in 2023Q2, compared to €58,159.0 mn, in 2023Q1. The corresponding net external debt indicator decreased to -€12,822.1 mn in 2023Q2, compared with -€11,569.9 mn in 2023Q1.

## Public Finances

- **General government budget balance (GGBB)** recorded a surplus in January-September 2023, of the order of €931.6 mn (3.1% of GDP) compared to a surplus of €727.1 mn (2.6% of GDP) during the corresponding period the year before (see graph 9.1).
- **General government primary balance (GGPB)** recorded a surplus in January-September 2023, of the order of €1,238.7 mn (4.2% of GDP) compared to a surplus of €1,049.8 mn (3.8% of GDP) during the corresponding period the year before (see graphs 9.1-9.2).
- **Total revenue** exhibited an increase of about 11.0%, reaching €9,050.2 mn in January-September 2023, compared to €8,151.1 mn during the corresponding period the year before (see graph 9.3).
- **Total expenditure** exhibited an increase of about 9.4%, reaching €8,118.6 mn in January-September 2023, compared to €7,424.0 mn during the corresponding period the year before (see graph 9.3).

## Property Market

- Eurostat's **house price index** for Cyprus recorded a **decrease of 0.4%** in the 2nd quarter of 2023 compared to the 1st quarter of 2023 and an increase of 3.2% compared to the 2nd quarter of 2022.
- The CBC's **residential property price index** recorded an **increase of 1.5%** in the 2nd quarter of 2023 compared to the 1st quarter of 2023 and an increase of 7.4% compared to the 2nd quarter of 2022. Cumulative from the 1st quarter of 2008 it has exhibited a decline of 13.7% (see graph 7.1), revealing an adjustment to the conditions of lower demand.
- According to the Department of Lands and Surveys, **new sale contracts** were up by 19.0% while **transfers of property** were down by 1.1% in January-October 2023 compared with January-October 2022 (see graph 7.3).

- Monetary Financial Institutions (MFI) **mortgage loans to domestic residents** for housing **increased by 2.2%** in September 2023 (see graph 7.2).

## Banking Sector Developments

- **MFI loans to domestic residents** (private sector) **decreased by 0.4%** in September 2023 (see graphs 8.2-8.4). Lending conditions remain tight (see graphs 8.6-8.7).
- **Deposits of domestic residents** held with MFIs (private sector) exhibited an **increase of 2.6%** in September 2023 (see graph 8.1).
- Overall **lending and deposit interest rates** in Cyprus are increasing following the ECB's decision to raise the three key ECB interest rates by 450 basis points (see graph 8.5). In September 2023, **deposit interest rates** for maturity of up to 1 year increased and of up to 3 months decreased compared with the preceding month. The **lending interest rates** to households for primary residence and the rate for other loans up to €1 mn for businesses increased. The interest rate for bank overdrafts to non-financial corporations also increased.
- **NPEs** in August 2023 decreased to €2.09 bn (8.6% on gross loans) compared to €2.30 bn (9.5% on gross loans) in December 2022. The gross loans decreased in the period from 1 January 2022 until 31 December 2022.
- The decrease for the year 2022 was due to debt to assets (swaps) and reclassified NPEs as performing facilities.
- **Accumulated provisions** increased to 52.5% in August 2023 compared to 47.5% in December 2022 compared to 43.4% of NPEs in December 2021 thus facilitating restructuring activity with a view to cure NPEs of viable customers.

## Credit Ratings

- On 29/09/2023, Moody's Investors Service upgraded the Government of Cyprus' long-term issuer and senior unsecured ratings to Baa2 from Ba1 and changed the outlook to positive from stable.
- On 29/09/2023, DBRS Ratings upgraded the Republic of Cyprus's Long-Term Foreign and Local Currency - Issuer Ratings from BBB to BBB (high). The outlook remains stable.
- On 01/09/2023, Standard & Poor's Ratings affirmed its long- and short-term foreign and local currency sovereign credit ratings on Cyprus to 'BBB/A-2' and changed the outlook to positive from stable.
- On 16/06/2023, Fitch Ratings affirmed Cyprus's Long-Term Foreign-Currency Issuer Default Rating (IDR) to 'BBB'. The outlook is stable.
